

VIKOKIT

Personal Protective
Equipment Kit

VIKOMA

Protecting our environment for 50 years

Quality
Reliability
Innovation

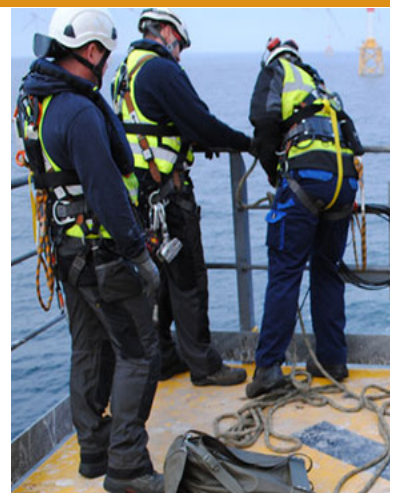

It is so easy to overlook the amount of equipment that is needed to effectively respond to an oil spill incident.

Vikokits have been expertly constructed to meet a wide range of spill applications, giving you a one stop shop for oil spill response consumables.

All of our Vikokits have been designed to pack into storage containers which are small enough to be loaded and transported by a 4 x 4.

This Vikokit contains a wide range of products that meet the requirements for personal protective equipment.

The Personal Protective Equipment VikoKit will provide the user with a package of equipment in a compact and easy to transport storage container.

The kit provides quality equipment specifically selected for facilities such as a busy Port, small harbour, oil company, or local authority.

This kit includes all of the equipment necessary to make a spill site secure and provide all of the materials for personal safety.

The kit contains the minimum requirements for both responder and general public health and safety.

The kit will meet the basic requirements for an Oil Spill Emergency Plan (OSEP) providing the necessary tools and equipment detailed in the guidelines of IMO Level1 and MCA 3/3P training.

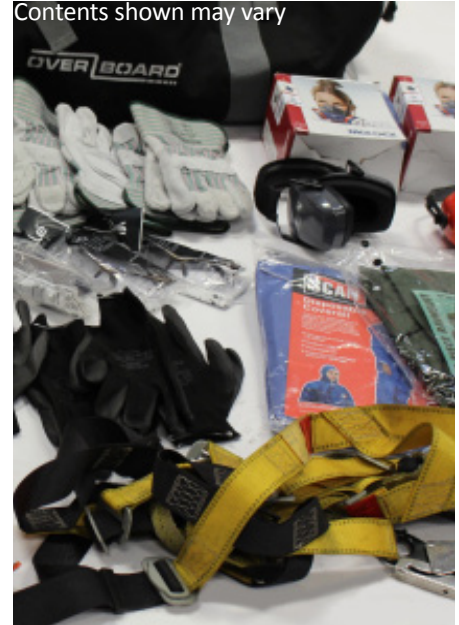

Features and Benefits:

- One stop shop for procurement.
- Everything at hand for immediate use.
- Quality robust design.
